

Welcome to Craig's Supper

Tonight, dinner is taken care of. Simply heat, serve and enjoy a comforting meal prepared by our kitchen and finished in yours.

On the reverse of this card, you'll find easy heating instructions to help you get dinner on the table in no time. Please take care when placing pouches into hot water and when opening heated pouches, as hot steam will escape.

Thank you for choosing Craig's Supper.

IMPORTANT

WARMING & SAFETY INSTRUCTIONS

All hot items are provided in sealed pouches.

Do not place pouches in the oven
or microwave.

Once heated, contents will be

EXTREMELY HOT.

HOT STEAM will escape when opening
the pouch.

Allow 25–30 minutes to prepare

STEP 1

Warm and crisp your bread roll.

If you have access to an oven, switch oven to Fan Forced, 160 degrees. Wet the palm of your hand with water and lightly roll your wet palm over the top of the dinner roll once. This light dampness will help to crisp the crust.

Place roll in oven for 5 minutes.

STEP 2

HEAT WATER

Bring a large pot (sufficient to accommodate protein and vegetable pouches together) of water to a gentle simmer (not a rolling boil).

STEP 3

Place the sealed pouches into a pot of simmering water with the yellow warning label facing upwards. Heat for 25 minutes.

STEP 4

PLATE

Put an oven glove on your main hand. Have a pair of tongs ready.

Carefully remove the pouches from hot water using **tongs and wearing an oven glove**. Place unopen pouches into a bowl or a plate.

Carefully cut open the pouches. Take care as hot steam will escape when you open the pouches.

Using tongs and your hand that is in the oven glove, pour the contents of pouches onto your dinner plate or bowl. Dispose of the empty pouches.

Take bread roll out of the oven if not already done so and butter your roll.

Open your accompanying beverage and enjoy your meal.
